

Helping Babies and Infants Defend Themselves from Inconsiderate Uneducated Unhygienic Adults Carrying the H1N1 Virus

Newborn & Infant Short Sleeve T Shirts designed to help infants make adults aware of the spreading on H1N1. Hospitals, Pediatricians, Retail stores , Nursing homes have an inexpensive way of creating greater awareness to help protect unsuspecting & defenceless children. Custom designs also available from Kidsblanks of California USA.

[[Santa Ana, CA \(PRWEB\)](#) November 10, 2009 -- Newborn & Infant Short Sleeve T Shirts designed to help infants make adults aware of the spreading on H1N1. Hospitals, Pediatricians, Retail stores, Nursing homes have an inexpensive way of creating greater awareness to help protect unsuspecting & defenceless children. Custom designs also available from Kidsblanks of California USA.

The US government and UN Health spokesmen are warning that the H1N1 epidemic will cause many to become ill and even die.

Babies , Infants and Toddlers are unable to defend themselves from unhygienic family members and friends who are infected with the H1N1 virus. "The safety of our defenseless children is of utmost importance." said Clive Rock; President of KidsBlanks a children's wholesale clothing distributor in California USA

"Wash Your Hands I'm too cute to get H1N1" or "I love attention but not from your H1N1 germs," are messages our kids can wear on their onesies and tees during this epidemic.

"The Laughing Giraffe's goal is to help our kids defend themselves from adults and friends with the H1N1 virus . Concerned companies, hospitals, doctors all can now help our babies, infants and toddlers defend themselves by giving them a "voice" on their clothing to educate and make aware unsuspecting carriers of the virus.

Members of ASI, PPAI & SAGE of the promotional industry have a wonderful opportunity to assist their clients with this wonderful cause," said Rock. Custom designs will be produced to satisfy each customers educational and promotional requirements.
